Re: Approval of Eno Economic Development District Phase I Engineering (Interlocal Agreement Between Orange County and the City of Durham for the Construction and Operation of Water and Sewer Facilities in the Eno Economic Development Zone of Orange County)

Dear. Mr. Bonfield:

In accordance with our agreement approved January of this year, Orange County has fully participated in the hiring of a civil engineer for utility master planning and design. We participated in the Request for Qualifications (RFQ) proposal, review and shortlisting of design proposals, interview process of potential engineers and review of the suggested engineer design firm fee structure and proposal.

Orange County planning and engineering staff has reviewed the proposal attached hereto and has no objections. The design firm's qualifications and fee structure are acceptable. We understand that the first phase of work is related to an overall master plan and feasibility analysis with full design and permitting at a later date and additional cost.

Thank you and your staff for taking the lead in this project. This area which is part of the City of Durham Urban Growth Boundary (UGB) and Orange County's Eno Economic Development Zone will be of mutual benefit.

Please forward invoices to Craig N. Benedict, Planning and Inspections Director, for sign off who will process invoices for payment in accordance with the agreement.

Sincerely,

Frank W. Clifton, Jr.
