THIS AGREEMENT, made and entered into by and between NORTH CAROLINA RAILROAD COMPANY, a North Carolina corporation, hereinafter styled "Company"; and CITY OF DURHAM, a North Carolina government entity, hereinafter styled "Licensee"; and NORFOLK SOUTHERN RAILWAY COMPANY, a Virginia corporation, hereinafter styled "NSR";

### WITNESSETH

WHEREAS, Licensee proposes to install, maintain, operate and remove one (1) 36-inch ductile iron potable water pipeline, along and under the right of way or property of Company, from Milepost H-053 plus 1,422 feet, Valuation Station 2715 plus 28, to Milepost H-053 plus 3,052 feet, Valuation Station 2731 plus 58, at or near Durham, Durham County, North Carolina, to be located with any ancillary appurtenances as shown on print of Drawing marked **Exhibits A1 to A5** dated July 27, 2011 and June 13, 2011, attached hereto and made a part hereof (hereinafter called "Facilities");

WHEREAS, Company is willing to permit this proposed pipeline, but only upon the following terms and conditions;

NOW, THEREFORE, for and in consideration of the premises, payment of an initial fee by Licensee to NSR of TWO HUNDRED AND NO/100 DOLLARS (\$200.00), and also a one-time non-refundable fee to Company of THIRTY-ONE THOUSAND THREE HUNDRED FIFTY-TWO AND 27/100 DOLLARS (\$31,352.27) and of the covenants hereinafter made, Company hereby permits and grants Licensee, insofar as Company has the right to do so, without warranty and subject to all encumbrances, covenants and easements to which Company's title may be subject, the right to use and to occupy so much of Company's property as may be necessary for the Facilities, upon the following terms and conditions:

1. Licensee will construct and maintain the Facilities, at its expense, in such a manner as will not interfere with the operations of Company or endanger persons or property of Company, and in accordance with (a) plans and specifications (if any) shown on said print(s) and any other specifications prescribed by Company, (b) applicable governmental regulations or laws, and (c) applicable specifications adopted by the American Railway Engineering Association when not in conflict with plans, specifications or regulations mentioned in (a) and (b) above.
2. Licensee hereby agrees to indemnify and save harmless Company, its officers, agents and employees, from and against any and all liability, claims, losses, damages, expenses (including attorney's fees) or costs for personal injuries (including death) and/or property damage to whomsoever or whatsoever occurring which arises in any manner from the installation, maintenance, operation, presence or removal or the failure to properly install, maintain, operate or remove the Facilities, unless such losses, damages or injuries shall be caused solely by the negligence of Company. The indemnity contained herein is intended to survive the termination of this Agreement.
3. Licensee assumes all responsibility for any environmental obligations imposed under applicable laws, regulations or ordinances relating to the installation of the Facilities and/or to any contamination of any property, water, air or groundwater arising or resulting from Licensee's permitted

operations or uses of Company's property pursuant to this Agreement. In addition, Licensee shall obtain any necessary permits to install the Facilities. Licensee agrees to indemnify and hold harmless Company from and against any and all liability, fines, penalties, claims, demands, costs (including attorneys' fees), losses or lawsuits brought by any person, company or governmental entity relating to contamination of any property, water, air or groundwater due to the use or presence of the Facilities. It is agreed that this indemnity provision extends to any cleanup costs related to Licensee's activities upon Company's property and to any costs related to cleanup of the Facilities or to other property caused by the use of the Facilities. The indemnity contained herein is intended to survive the termination of this Agreement.

4. No work of any character shall be started on the property until Certificates of Insurance, specifying that the policies have been furnished and accepted by Company as evidence that Licensee, Contractor, and Subcontractor maintain the following insurance coverages:

(a) Comprehensive General Liability Insurance having a combined single limit of not less than \$2,000,000 per occurrence for all loss, damage, cost and expense, including attorney's fees, arising out of bodily injury, liability and property damage liability during the policy period. Such policy shall be endorsed to name Company as an additional insured and shall include a severability of interests provision. In addition, Licensee's policy shall be endorsed to reflect Contractual Liability Insurance specifically relating to the indemnity provisions of this agreement. Any exclusion for construction or demolition activities (including installing wells or bore holes, but not for work done by means of a hand augur) conducted within 50 feet of railroad tracks shall be deleted from Licensee's policy.

(b) In the event Licensee cannot obtain contractual liability insurance to cover the obligations assumed under this Pipeline Agreement, Licensee or its contractor shall procure and furnish to Company a Railroad Protective Liability Insurance Policy having a combined single limit of \$2,000,000 per occurrence and \$6,000,000 aggregate. Said policy shall name Company as the named insured.

(c) Workers' Compensation Insurance in satisfaction of statutory requirements of the state where the property covered by this agreement is located. Also, Employers' Liability Insurance having limits of not less than \$500,000 each accident, \$500,000 per disease - policy limit, and \$500,000 per disease - each employee.

(d) Automobile Liability Insurance having a combined single limit of not less than \$500,000 per occurrence. Said policy shall name Company as an additional insured and shall include a severability of interests provision.

(e) The insurance required herein shall be of such form and content as may be acceptable to Company. Evidence of such insurance (a certificate of insurance for the general liability insurance policy and the original policy of Railroad Protective Liability Insurance) must be furnished to Company at Property Department, North Carolina Railroad Company, 2809 Highwoods Blvd, Suite 100, Raleigh, NC 27604-1000 (or such other current address provided to Licensee) and approved by Company prior to Licensee's entry on the Premises. The insurance required herein shall not limit the liability assumed by Licensee under this Agreement or consent.

5. The details of the Facilities to be installed and maintained shall be at the option of Licensee, and subject to the approval of Company. In case of failure of Licensee to do the work as herein specified, Company reserves the right to remove the Facilities from Company's premises at the expense of Licensee, and to terminate this Agreement upon ten (10) days' written notice.

6. If Company shall make any change or addition on its right of way at or near the Facilities of Licensee affecting the character, height or alignment of any of Company's power lines, communication, signal or other wires or electrical apparatus, or shall place structures or additional wires

or electrical apparatus upon its said right of way, or shall make on its said right of way any change to any line, grade, track, roadbed, installations, works or structures or in the use of any such line, grade, track, roadbed, installations, works or structure, which would be affected by the Facilities of Licensee or by the use thereof, Licensee shall within thirty (30) days of written notice from the Company to Licensee, at Licensee's sole cost and expense, make such changes in the location and character of the Facilities as, in the opinion of Company, shall be necessary or appropriate on account of any such changes or additions.

7. Licensee will notify Company prior to the installation and placing in service of cathodic protection in order that tests may be conducted on Company's signal, communications and other electronic systems for possible interference. If the Facilities cause degradation of the signal, communications or other electronic facilities of Company, Licensee, at its expense, will relocate the cathodic protection and/or modify the Facilities to the satisfaction of Company so as to eliminate such degradation. Such modifications may include, without limiting the generality of the foregoing, providing additional shielding, reactances or other corrective measures deemed necessary by Company. This provision applies to the existing signal, communications and electronic equipment of Company and to any signal, communications or electronic equipment that Company may install in the future.

8. If Licensee fails to take any corrective measures requested by Company in a timely manner or if an emergency situation is presented which, in the Company's judgment, requires immediate repairs to the facilities, Company, at Licensee's expense, may undertake such corrective measures or repairs as it deems necessary or desirable and Licensee shall reimburse Company upon receipt of an invoice.

9. Notwithstanding any other provision of this Agreement, it is understood, agreed and covenanted that Licensee accepts this Agreement as a mere license and assumes all risk of damage to its property by reason of its occupation of the premises herein described caused by any defects therein or business conducted thereon, whether caused by the negligence of Company, its officers, agents or employees, or otherwise, and Licensee hereby indemnifies Company, its officers, agents, and employees, from and against any such liability for said damage. The indemnity contained herein is intended to survive the termination of this Agreement.

10. Company shall furnish, at the cost of Licensee, labor and materials to support its tracks and to protect its traffic during the installation, maintenance, repair, renewal or removal of the Facilities.

11. It is further agreed between the parties that the premises shall be used by Licensee only for the Facilities and for no other purpose without the written permission of the chief engineering officer of Company.

12. Licensee shall give Company seventy-two (72) hours' advance notice (or less in case of emergencies) of any work to be performed on the premises of Company. Licensee agrees to pay any costs incurred by Company for the purpose of protection and inspection considered necessary by Company during installation, maintenance, operation, modification, replacement and/or removal of the Facilities. Such costs shall be paid upon the Company's submission of an invoice to Licensee.

13. Licensee shall not assign this Agreement without the written consent of Company which consent may be withheld in Company's sole discretion.

14. The word "Company" as used herein shall include any other company whose property at the aforesaid location may be leased or operated by Company. Said term also shall include Company's officers, agents and employees, and any parent company, subsidiary or affiliate of Company and their officers, agents and employees.

15. This Agreement may be terminated by either party upon sixty (60) days written notice to the other party. During said sixty (60) day period, Licensee shall remove the Facilities from Company's premises and restore said premises to a condition satisfactory to Company's chief engineering officer. If Licensee fails to remove the Facilities within the aforesaid sixty day period, Company may elect: (a) to become the owner of the Facilities without any claim or consideration whatsoever therefor by or to Licensee, its successors or assigns, or (b) to remove the Facilities and all property of Licensee from the premises of Company at the expense of Licensee. Licensee agrees to reimburse Company for any and all costs of such removal upon receipt of an invoice. No termination of this Agreement shall affect any liability incurred by either party hereto prior to the effective date of such termination.

16. This Agreement shall take effect as of the \_\_\_\_\_ day of \_\_\_\_\_, 20\_\_.
