

Date: November 15, 2012

To: Thomas J. Bonfield, City Manager
From: Marvin G. Williams, Director of Public Works
Subject: Sidewalk Repair Contract SW-29 Update

Executive Summary

At the November 8, 2012 Work Session a presentation was given on the DurhamWalks! Pedestrian Plan. During that presentation it was pointed out that Contract SW-29 for sidewalk repair was moving forward for advertising. Councilmember Catotti asked if the listing of sidewalk repair locations could be provided. The listing of sidewalk repair locations is attached as well as the DurhamWalks! Pedestrian Plan presentation.

Recommendation

The Administration recommends that the City Council receive a report on the Sidewalk Repair Contract.

Background

Sidewalk Repair Contract SW-29 provides for repairs to existing damaged sidewalks throughout the city. 252 locations will be repaired on approximately 105 different street blocks. Also approximately 20 new curb ramps will be installed. This contract was advertised to bidders on Tuesday November 13, 2012, and will come to Council for contract award in the future, likely in February, 2013. This project is funded by the last of the 2005/2007 Bonds set aside for sidewalk repairs.
