DIVISION 2. - OPERATING PERMIT

Sec. 50-118. - Required.

No person shall operate any passenger vehicle for hire in the city without first obtaining an operating permit from the city authorizing such operation. Except, a person licensed or permitted to drive and operate a passenger vehicle for hire in another city in the state or the Raleigh-Durham Airport Authority may operate and drive such passenger vehicle for hire in the city when performing any of the following activities:

- (1) Entering the city to drop off a passenger picked up outside of the city limits.
- (2) Pursuant to a pre-arranged trip, picking up a passenger within the city limits and taking the same outside of the city limits.

Sec. 50-119. - Issuance.

- (a) The city council authorizes the city manager to issue operating permits to any applicant subject to the provisions of this article.
- (b) No operating permit shall be issued to any person who shall not have fully complied with all of the prerequisite requirements of this article before the commencement of the operation of the proposed service. Upon issuance of the operating permit, the operator shall affix the permit on the dash of the vehicle.
- (c) When the operating permit has been authorized, and upon determination by the administrator that the color scheme is sufficiently distinctive as not to cause confusion with other taxicabs already operating, and with respect to taxicabs upon the receipt of a fee for each medallion pursuant to section

50-134, the administrator will issue for each passenger vehicle for hire a numbered medallion to be affixed to the passenger vehicle for hire for which the operating permit is issued. Loss or destruction or defacing of the medallion shall be reported to the administrator. No vehicle shall be operated while there is affixed thereto a medallion issued pursuant to this subsection unless, pursuant to this article, the vehicle's use as a passenger vehicle for hire has been authorized and the driver of the vehicle has been authorized to drive a passenger vehicle for hire for the operating permit holder to whom the medallion was issued.

(d) The privilege of engaging in the business of operating a passenger vehicle for hire in the city granted in the operating permit is personal to the operating permit holder. The rights, requirements and responsibilities, which attach to the operating permit, remain with the holder at all times the passenger vehicle for hire is operated in the city under the authority of the operating permit. These rights, requirements and responsibilities, which include the requirements of this article, will remain unaffected by any agreement or contractual arrangement between the operating permit holder, regardless of the form or characterization of the agreement under which the operating permit holder and/or driver operates the passenger vehicle for hire.

(e) The operating permit holders shall, in the case of any change in business address or telephone number, notify the administrator, in writing, of such change within 48 hours of the effective date of the change.

(f) Before allowing a person to drive under his or her operating permit, the operating permit holder shall review the qualifications of such person to drive a passenger vehicle for hire. No operating permit holder shall permit or allow any person to drive a passenger vehicle for hire under his or her operating permit if it appears such person fails to meet the provisions contained in this article. The failure of an operating permit holder to comply with this section shall subject the operating permit holder's operating permit to revocation or suspension as provided in section 50-130(a)(1).

(g) Taxicabs. The initial number of taxicab operating permits available for issuance shall be set at 180. Annually or in its discretion at more frequent intervals, the council may review, study and analyze the public need for additional taxicabs and, upon finding by the council that the public convenience and necessity require the operation of additional taxicabs, other than those for which permits are presently outstanding, additional permits shall be declared available and applications may be filed in a manner prescribed by the city council. Operating permits shall then be awarded in accordance with the procedures set forth in this division. The following factors shall be considered for the purpose of determining the adequacy of taxicab service in the city and the need for additional operating permits.

- (1) Total number of taxicabs then licensed and in actual operation on the streets.
- (2) The number of filled and unfilled telephone requests for taxicab service made during an average 24-hour period.
- (3) The demand for taxicab service at taxicab stands that is filled and unfilled.
- (4) The average waiting time of persons at taxicab stands and of those persons requesting service by telephone before service is available to them.

(5) The adequacy of taxicab service provided at train stations, bus terminals and other transportation terminals.

(6) The number and availability of qualified full-time and part-time drivers to operate existing taxicabs.

(h) In addition to assuring compliance with other application requirements set forth in this article, the city manager shall consider the following in issuing operating permits.

(1) The financial responsibility, experience and quality of service being rendered, if any, by each applicant.

(2) The total number of permits held by each applicant.

(3) The number of permits requested by each applicant.

(4) The age and type of equipment to be operated.

(5) The ability of each applicant to provide an efficient level of service.

(6) Any other considerations which will tend to improve passenger vehicle for hire service in the city.

(i) In issuing available operating permits preference shall be given to applicants requesting multiple permits (in order of the greatest number of permits requested).

(j) An operating permit shall not be issued to an applicant who has had a permit revoked or who has transferred a permit within the 24-month period preceding the application.

(k) The issuance of available taxicab operating permits shall be **done semiannually, on or about October 1 and April 1**. All of those persons interested in obtaining an operating permit shall submit an application in accordance with section **50-121** at least 60 days prior to the scheduled date of issuance. Qualified applicants will be placed on a waiting list in chronological order.

(l) If the number of taxicab operating permits requested exceeds the number of permits available, then the permits are issued to the most qualified applicants in order of priority. If certain applicants are equally qualified, then the order of priority shall be based upon the date and time of the application (earlier applicants with higher priority).

(m) If an applicant for an operating permit refuses the operating permit or fails to provide service in accordance with the permit within 60 days of the issuance of the permit, the permit is revoked.

Sec. 50-120. - Authorization to operate a passenger vehicle for hire under operating permit.

Nothing contained in this article shall prohibit any person from owning or operating a taxicab or other passenger vehicle for hire under an operating permit, in accordance with this article. Provided such person shall operate a taxicab or shuttle under the color scheme of such operating permit and a taxicab

shall use a dispatcher service and radio equipment. Such person or the person's driver shall have a valid passenger vehicle for hire driver's permit issued by the administrator, as provided for in division 3.

Sec. 50-121. - Application requirements.

All applications for an operating permit are to be submitted by the vehicle owner and the supporting service provider, hereafter called applicant, on forms provided by the administrator stating as follows:

- (1) The name and address of each applicant and, in the event that an applicant is a business association, a certified copy of the organizational documents;
- (2) The number of vehicles presently operated by the service provider on the date of such application, if any;
- (3) The color scheme for which the operating permit is desired, if the vehicle is a taxicab or shuttle. (Limousines, limousine sedans, para-transit vehicles and unique vehicles as defined in Section 50-81 are exempt).
- (4) All court records of the applicant. If an applicant is a corporation or association, the court records of the officers, directors and supervising employees thereof, including general manager, if any;
- (5) The applicant's submittal of the following conditional information:
 - a. Ability to provide passenger vehicle for hire service 24 hours a day, seven days a week as an individual owner or through affiliation with other owners. This subsection shall apply to taxicabs only.
 - b) Ability to provide adequate supervision of passenger vehicles for hire and drivers operating under the operating permit;
 - c) Evidence that the telephone number of the passenger vehicle for hire company (or the dispatch association with which the company is affiliated) will be listed in the next city telephone directory to be issued;
 - d) Assurance that each passenger vehicle for hire operating under this permit shall be kept clean and in good mechanical condition and in good physical condition at all times, pursuant to established standards, which are maintained in the office of the administrator, and shall meet all vehicle requirements of this article.
- (6) The applicant shall swear that the information submitted is true and correct. Submitting, or causing to be submitted, false or misleading information is unlawful and shall be grounds for denial of an operating permit.
- (7) In providing information required by subsections (1), (4), and (5) of this section, an applicant may refer to previous applications, with which the referenced information has been submitted, provided that the applicant certifies that there has been no change with respect to the documents or information referenced.

(8) This section does not reduce the city manager's authority under section 1-11.

Sec. 50-122. - Indemnity agreement in the application.

The applicant for a taxicab operator's permit shall state that the applicant agrees with the provisions set forth in subsections (1) and (2) of this section. Each operator shall be under an obligation to comply with said provisions by operation of law.

(1) If the city issues an operator's permit, the applicant shall to the maximum extent allowed by law defend, indemnify, and save harmless indemnitees from and against all charges to the extent a charge arises in any manner from, in connection with, or out of the indemnitees alleged involvement with the establishment, supervision, management, or operation of or control over a fund referred to in section 50-352. In performing the duty to defend under the preceding sentence, the applicant shall at the applicant's sole expense defend indemnitees with legal counsel reasonably acceptable to the city. However, this section shall not require the applicant to defend, indemnify, or save harmless an indemnitee to the extent the negligence or wrongful act of the indemnitee was the direct and proximate cause of the charge. This section shall remain in force regardless of whether the operator's permit remains in force.

(2) As used in this section the term "charges," means claims, judgments, costs, damages, losses, demands, liabilities, obligations, fines, penalties, settlements, and expenses. Included without limitation within "charges" are interest and reasonable attorney's fees assessed as part of any such item. The term "indemnitees" means the city; the city's officers, officials, agents, and employees; the passenger vehicle for hire commission and members of the commission.

Sec. 50-123. - Hearing on application.

The city manager may require a hearing with the operating permit applicant if the administrator is not convinced that the applicant meets all eligibility criteria and has provided all necessary data to the administrator as outlined in section 50-121.

Sec. 50-124. - Issuance; conditions; denial.

(a) Subject to compliance by the applicant with the provisions of this article, the administrator shall authorize issuance of an operating permit to the applicant, provided:

(1) The vehicle for which application for an operating permit is made shall be in strict compliance with this article and placed into service within 60 days. However, for good cause shown the administrator may at any time within his or her discretion grant an additional 30 days to place the vehicle into service.

(2) The court record of the applicant is not such as would make it against the public interest for such application to be granted:

a. Denial. Convictions or pleas of guilty or no contest to any of the following create the presumption that the granting of the application is not in the public interest and shall be grounds for denial; sex offenses; felonious drug offenses; prostitution; felonies involving violence or attempted violence; and/or felonious illegal gambling.

b. Any applicant denied an operating permit under the provisions of this section may appeal such denial to the passenger vehicle for hire commission. The commission shall consider convictions and pleas of guilty or no contest to the above crimes as creating a rebuttable presumption that the approval of the applicant's application is not in the public's interest. If an application denied under this section is approved by the passenger vehicle for hire commission then the granting of the permit shall be presumed to be in the public interest. All appeals shall be filed pursuant to the provisions contained in section 50-132

c. No application for an operator's permit from an applicant denied an operator's permit pursuant to the provisions of this section, shall be accepted from such applicant within two years from the date of the administrator's denial.

(3) The applicant thereof shall have complied with all the provisions of this article, including a determination by the administrator that the applicant has satisfied the provisions of section 50-121(5).

(4) The issuance is not in conflict with such conditions as placed by city council on the issuance of operating permits.

(b) Upon issuance of the operating permit by the administrator, he or she shall place said permit in a visible location inside the vehicle. At that time, the administrator shall affix the medallion in the passenger vehicle for hire, as required by section 50-119

Sec. 50-125. - Expiration.

All passenger vehicles for hire permits shall remain valid until surrendered or revoked. The operating permit shall automatically expire if the conditions, under which the permit was issued, as provided in section 50-124, change without prior approval of the administrator.

Sec. 50-126. - Updating of operating permit information.

(a) Each year before midnight on July 1, the operating permit holder will provide the following information to the administrator:

- (1) Operator's name, company name, all pertinent addresses and telephone numbers;
- (2) Vehicle and insurance information;
- (3) City of Durham business license.

(b) Every three years from date of issuance, the operating permit holder shall update the information associated with the operating permit application, as set forth in section 50-121.

Sec. 50-127. - Transfer.

(a) Each permit issued pursuant to the provisions of this section is separate and distinct and shall not be transferable from the operating permit holder to another person or entity without prior approval of the

administrator. The administrator shall not approve any transfer in conflict with the provisions of this article.

(b) Where the permit holder is a corporation, partnership or other legal entity (other than a natural person), voluntary transfer of the majority of the ownership interest shall result in the automatic revocation of any operating permit previously granted to the operating permit holder, unless the prospective owners of the new entity obtain prior written approval from the administrator for the transfer of the operating permit to the new entity.

(c) Whenever an application for a transfer of permit is made, the administrator shall require such information as required for the original issuance of the operating permit, as set forth in section 50-121.

(d) Upon written approval by the administrator of a transfer of an operating permit, and compliance by the applicant with all the provisions of this section the administrator, shall issue a new operating permit within 30 days of such compliance.

(e) No person shall transfer an operating permit for the first 24 months after issuance except in cases of hardship. A hardship case includes the following examples: death or court-declared incompetency of the holder of the operating permit, or the holder of the operating permit is diagnosed by a board-certified physician that he or she has a life threatening illness. The administrator shall determine whether or not a case meets the test of a hardship and the administrator's decision may be appealed to the passenger vehicle for hire commission.

Sec. 50-128. - Transfer of state auto license.

(a) Whenever a passenger vehicle for hire has been removed from service and replaced by another vehicle, it shall be unlawful for the holder of the operating permit pursuant to which such passenger vehicle for hire so replaced was operated, to operate the replacement vehicle pursuant to the operating permit until and after a transfer of state auto license has been filed with the administrator and with the appropriate state vehicle licensing agency. The transfer shall be made on forms furnished by the state auto license bureau.

(b) It shall also be unlawful to operate any such replacement vehicle as a passenger vehicle for hire prior to compliance with the provisions of subsection (a) of this section.

Sec. 50-129. - Replacement of vehicles for hire; new permits.

(a) Whenever an operating permit holder replaces a passenger vehicle for hire with another vehicle, in accordance with section 50-128, the replaced vehicle must have all passenger vehicle for hire identification removed, including, insignias/stickers, top/meter lights, numbers and letters.

(b) When replacing a passenger vehicle for hire, an operating permit holder has 60 days in which to place the replacement vehicle into operation.

In making the decision, the administrator shall consider previous requests, if any, by the same applicant;

(5) The administrator determines, in the interest of the public safety and welfare, and pursuant to the provisions of this article that an operating permit should be suspended or revoked;

The holder of the permit shall have the right to be present at the hearing and shall be given written notice at least five days in advance of the hearing. Service of the written notice is complete upon the deposit in the mail to the operating permit holder's last known address or hand delivery to the operating permit holder.

(d) Operating permits may be suspended under this section for a period not to exceed six months.

(b) After the applicant has satisfactorily complied with this division, the administrator shall issue to such applicant a driver's permit, valid for one year from date of issuance. No person shall operate a passenger vehicle for hire within the city while his or her driver's permit is expired.

Such suspension shall not exceed 60 days. A third suspension of a driver's permit within a five-year period shall result in the mandatory revocation of such driver's permit. No application for a driver's permit will be accepted from an applicant within six months of the date of revocation.

Sec. 50-163. - Revocation; grounds generally.

The administrator may revoke or refuse to renew a driver's permit if the person to whom the driver's

The administrator shall require the driver who is granted the 30-day suspension in lieu of revocation to obtain a substance abuse assessment and abide by the recommendations. The person who is suspended pursuant to this section shall be subject to random drug testing for one year. If a substance abuse program is recommended then it shall be successfully completed. Without limiting other provisions in this chapter regarding suspension and revocation of a driver's permit, it is a condition of the suspension that the administrator shall revoke the driver's permit if the person violates the requirements imposed pursuant to this section;
