CITY OF MEDICINE

CITY OF DURHAM | NORTH CAROLINA

Date: March 1, 2012

To: Thomas J. Bonfield, City Manager
Through: Theodore L. Voorhees, Deputy City Manager
From: Mark D. Ahrendsen, Transportation Director
Subject: Main Street Bridge Replacement Over Campus Drive (B-3638)

An NCDOT project to replace the Main Street bridge over Campus Drive is scheduled for 2012. This project also includes the resurfacing of Main Street from 9th to Peabody and a segment of Swift Avenue from Main to NC 147.

Representatives of the City, NCDOT and Duke University met recently to discuss opportunities to better coordinate the schedules of the City's Main Street waterline project and the NCDOT bridge replacement project and to consider ways to compress the bridge construction schedule and minimize the duration of the associated closure of Main Street.

Wally Bowman, NCDOT Division Engineer, will provide an update on plans for the Main Street bridge replacement project at the Council work session on March 8, 2012.
