

ATTACHMENT NO. 1, PART B
(for Amendment No. 2)

AMENDED SCOPE OF SERVICES

The amended Scope of Services for the East Durham Elevated Water Storage Tank's valve vault includes the design and layout of all new piping, butterfly valves, a new check valve and a new altitude valve to be located in the existing valve vault. The work includes coordinating the instrumentation and controls of the East Durham Elevated Tank and the existing Ellis Road Elevated Tank with the controls at the new 3 MG Angier Avenue Tank. The work also includes coordinating the operation of the altitude valves at all three locations for the City's operation preferences.
