The Durham Bicycle and Pedestrian Advisory Commission (BPAC) reviewed the project referenced above. We believe the project would better serve the needs of the community if the following items are included:

- Provide minimum 4 foot wide asphalt width with any roadway improvements to NC54 and Barbee Road. These corridors are designated to have minimum 4 foot wide bicycle lanes in the adopted 2006 Durham Comprehensive Bicycle Transportation Plan. Provide this minimum width in both directions within the full length of the roadway improvement area,
- If curb and gutter are installed on these roads, allow enough width for eventual minimum 4' bike lanes.

Thank you for your consideration.
