The Durham Bicycle and Pedestrian Advisory Commission (BPAC) reviewed the project referenced above. We believe the project would better serve the needs of the community if the following items were included:

- Ensure that curb and gutter are installed in a manner that would allow enough width for eventual minimum 4' bike lanes on NC 751. This road is designated to have bike lanes in the adopted 2006 Bicycle Transportation Plan and 2035 Long Range Transportation Plan;
- Provide a 100' wide corridor for the Eagle Spur Trail, which would match the corridor segment to the north.

Thank you for your consideration.
