Comments
<ul style="list-style-type: none"> Inclusion staff and program for my son with autism was exceptional! I am more than pleased with his camp experience.

Additional constructive comments or suggestions?
<ul style="list-style-type: none"> Camp was overly focused on behavior and discipline. There was very limited swim time. Why can't the kids swim every day? That's what they do at the YMCA camp. My child said the counselors were trying to make sure the kids were not having fun. What's up with that?
<ul style="list-style-type: none"> The staff was so friendly and all worked so well with my son and his special needs. He was so happy to go to camp every day. I was so pleased with all of the new experiences he had and the games and fun he participated in. The children at camp were also so friendly and welcoming to him. As a family we are thrilled with everything and everyone at camp at Edison Johnson. We will be enrolling him again next year.

Additional constructive comments or suggestions?

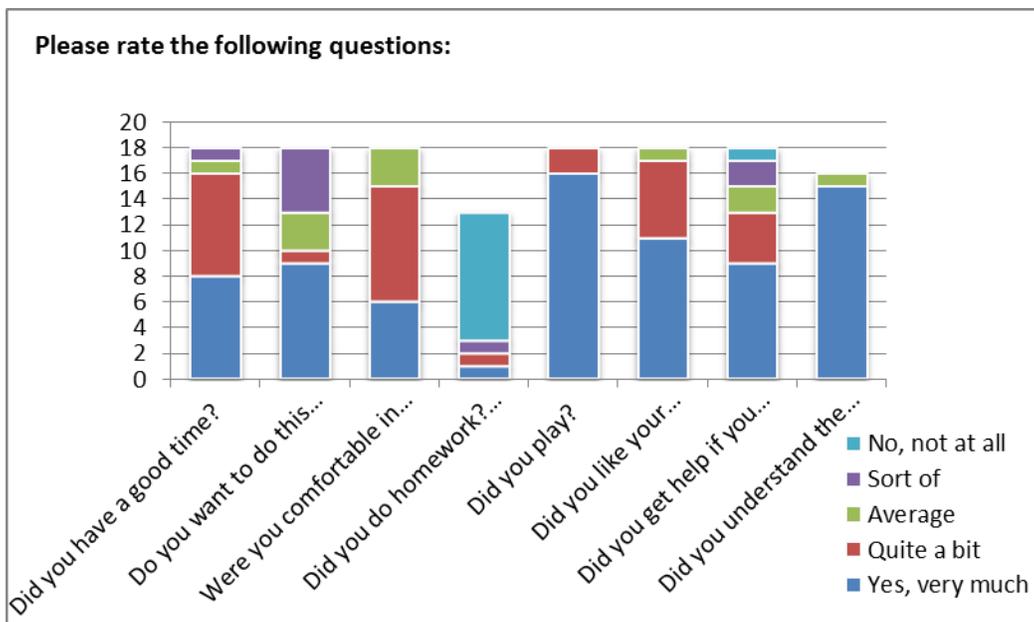

- The online bill pay needs to be enhanced. Currently the system only allows applicants to enroll online, but does not allow additional payments to be made online. Also, the printed receipt does not provide adequate details about payment amount, date submitted and payment amount due. This is the only negative experience I had with DPR programs.

Departmental Measures

The adult responses either met or exceeded in all Departmental Measures.
