responded to say that they would not offer a bid; nine SDBE's could not be contacted because of faulty addresses. Of the 109 bid notices sent, 95 did not respond. Prices offered by three firms were too high. One firm did not provide the price in time for the bid.

yes no Please explain.

Answer: Crowder used the SDBE listing to solicit prospective bidders.

(b) Did your firm use the services of available minority/women community organizations, minority and women contractors' groups, government-sponsored minority/women business assistance agencies, and other appropriate organizations to help solicit SDBEs for the work?

yes no Please explain.

ANSWER: Crowder used the services of Diversity News. They also engaged the SDBE listing that we provided.

Conclusions:

The goals for this project are 3% MSDBE and 1% WSDBE. Crowder made a good faith effort to solicit and engage SDBE's to meet the goals for this project. This conclusion is supported by the following:

- **Crowder attempted to contact all of the firms on the SDBE listing that we provided. Only fourteen firms of the 109 contacted responded. Of the fourteen who responded, only four provided bids.**
- **Crowder used the SDBE listing and reached out through Diversity News to attract additional firms.**

- **Four firms were considered. The bid for one firm, Covenant Trucking was accepted. One firm got their bid in too late and three firms offered bids that were too high.**
- **Crowder was timely in their solicitations. They made their initial contacts on 12/16/2013 and a follow-up on 1/6/2014.**

My recommendation is to grant their good faith effort request and offer the opportunity to seek additional participation. One of the prospective SDBE bidders who prepared a bid was not able to get their bid proposal into Crowder in time for the bid opening. That firm could potentially offer an acceptable bid. Furthermore, none of the next lowest bidders met the goals.
