

CITY OF DURHAM | NORTH CAROLINA

Date: May 15, 2014

To: Thomas J. Bonfield, City Manager
From: W. Bowman Ferguson, Deputy City Manager
Subject: Response to Council's Request Regarding the Network Hut License Agreement

At the May 8, 2014 Work Session, Councilmember Catotti asked what the going rate for Google fiber hut lease payments were in the city of Austin. Below I have included the current payments that are in place for Google fiber huts in the three cities where Google's fiber network is currently operating:

1. Provo, UT: granted perpetual easements that cease if/when the huts are not used for a 24 month period; with no charge associated with the easement
2. Kansas City, MO: \$1 per year per hut site
3. Austin, TX: \$2,250 per year per hut site
