The Corners at Brier Creek (Z1200019)

Ms. Bielen	Vote approval
Mr. Davis	Vote approval
Mr. Gibbs	Approved as presented, proposed
Mr. Harris	Voted for approval
Mr. Hollingsworth	Approve
Mr. Miller	See case A1200008
Mr. Padgett	Motioned to approve
Mr. Whitley	I voted to approval
Ms. Winders	Auto transportation and environmental aspects of the proposal appear to be well-designed. There was a question about whether the site is served by transit. I hope that DATA and OEWD will be involved in making this development a success. Attention also needs to be directed to ensuring that some of the multi-family units will be affordable.
