Subject: FW: Pretrial Release

Attached is S316 which codified the City Council's request for an amendment to the state law to strengthen the pretrial release conditions in certain situations involving the illegal use of a firearm. The City's language is codified in 15A-533(f) and was not changed. The problematic language at issue the Lawyer's Weekly article appears is 15A-534(d3). This was apparently a late amendment and was not related to Durham's request.

Let me know if you have questions.
