

Description of Work and Fee Schedule

BID FORM

The bid package contained herein represents a three (3) year maintenance contract for DATA bus amenities including sidewalks, concrete work, demolition, grading, and shelter installations. The Forecasted Quantities are amounts of work anticipated during the life of the contract; actual quantities may vary and may be larger or smaller than those listed in the table below.

Bidders are requested to quote cost per hour quote for doing each of the services itemized above. The cost should be labor cost only for all services except for the construction and repair of the concrete pads in which case bidders must provide additional price for the concrete based on the dimensions provided.
