TC1500006 Reasonable Accommodations

FREEMAN – I understand and agree the needs for a reasonable accommodations definition and policy. However, it's unsettling to see how the exclusions are spelled out. I have serious concerns on the spelling out of the disability exclusions and the clarity around juvenile offenders and persons convicted of the illegal manufacture or distribution of a controlled substance. Especially, for juvenile offenders or person connected in the past being excluded and carrying forward a hindrance based on the Prison Institutional Complex mindset of the federal government.

BUZBY – I think these are reasonable and appropriate changes and are in compliance with the Durham Comprehensive Plan. I vote to approve.

VANN – I voted in favor of this with proper corrections being duly noted.

WHITLEY – I vote to approve.
