*Q: How many inspectors does the City anticipate will be needed for this project?*

A: It is likely that the contractor repairing the sidewalk will be running multiple crews. However, the streets selected for this project are within three miles of each other. It will be up to the selected firm to determine if multiple inspectors will be needed.

*Q: What is the anticipated duration of the project?*

A: The construction contract requires the project to be completed within 180 calendar days.

Please let me know if you have any questions.
