About the Project

Project Description

The City of Durham Public Works Department is currently in the 65% design phase for pedestrian facilities along LaSalle Street between Kangaroo Drive and Sprunt Avenue in Durham, NC. The project is included in the 2018-2027 North Carolina Department of Transportation (NCDOT) State Transportation Improvement Program (STIP) as Project No. EB-5703.

Proposed Design

The current proposed design includes the addition of approximately 0.7 miles of sidewalk on both sides of South LaSalle Street from Kangaroo Drive to Hillsborough Road and on one side of LaSalle Street from Hillsborough Road to Sprunt Avenue. Accessibility ramps are also included in the design. The existing undivided road with 12-foot wide lanes is proposed to remain the same, and the posted speed would remain 35 miles per hour.

**LaSalle Street
Durham, Durham County**

Public Involvement

Public involvement is an important part of the project development process. The City of Durham encourages citizen involvement on transportation projects and will consider your suggestions and address your concerns.

It is important you provide your comments on the proposed improvements. Your comments will be reviewed by the project team.

**Comments and questions
should be submitted on or before
August 6th, 2019**

Proposed Typical Section

Benefits of the Proposed Design

The Durham Walks Pedestrian Plan (adopted July 2006) prioritizes the addition of pedestrian facilities along LaSalle Street from Kangaroo Drive to Erwin Road and from Sprunt Avenue to Kangaroo Drive.

- **Improved Safety and Mobility for Pedestrians** with the installation of sidewalks on LaSalle Street.
- **Improved Accessibility to Sidewalks** with the installation of accessibility ramps.

Current Schedule*

Final Plans Complete	January 2020
Right of Way and Easement Acquisition	March 2021
Construction Begins	July 2022

*Subject to change
