**Subject: Quarterly Expanding Housing Choices Metrics**

### **Summary**

Since Unified Development Ordinance (UDO) Text Amendment TC1800007, Expanding Housing Choices (EHC), was adopted, 50 related permit applications have been submitted to the City-County Planning Department. To enable regular reports on the effectiveness and impact of the EHC amendment, the Planning Department has gathered metrics and baseline information for six of twelve agreed metrics related to effectiveness and impact. Staff are gathering data for two more of the metric and require more time to gather the remaining four metrics.

### **Recommendation**

This report is for informational purposes only. No action is required.

### **Background**

In October 2019, the Durham Board of County Commissioners and Durham City Council approved the EHC text amendment with a resolution regarding regular reports on the effectiveness and impact of the EHC amendment. Staff have since been tracking submitted permits for the projects that are now permissible under EHC and gathering the agreed upon metrics, including baseline data for 2019 to present for approval by the governing bodies.

### **Issues and Analysis**

Fifty EHC-enabled projects have been submitted for approval since EHC became effective on October 1, 2019. From July to September 2020, sixteen building permits or plats were submitted to the Planning Department for projects that are now permissible under EHC – eight have been issued or approved, and eight are under review.

From July to September 2020, fourteen dwelling units received demolition permits in EHC zoning districts (out of nineteen total residential demolition permits issued); twelve in the Urban Tier and two in the RS-M district in the Suburban Tier.

Planning staff are still developing methods for collecting the other data requested in the County resolution. Unfortunately, the Center for Community Capital at the University of North Carolina did not receive funding to research additional metrics Staff will work to determine if there are alternate ways to work with this group in the coming year.
