RE-INSPECTION FEE NOTICE

March 16, 2016

Re: Re-Inspection Fee Notification

Dear Contractors,

The City of Durham has a Cross-Connection Control (CCC) program which mandates the installations of backflow assemblies on certain potential processes, including domestic containment on commercial locations, fire protection, lawn irrigation systems, chillers, boilers, health facilities, etc. All new backflow installation and replacement backflow preventers require a \$100 backflow permit per assembly in order for the Cross Connection Control staff to perform an inspection and have inventory of licensed contractors who performed the work. Up until now, this fee covered as many inspections as needed in order for the permit to be closed out. Due to the high volume of re-inspections, in order to offset the cost, the city will implement a fee on each additional re-inspection trip required to close out a permit.

This letter is being sent to notify your company that **effective April 1, 2016, that a \$100.00 re-inspection fee will be charged for a re-inspection of a Backflow preventer permit, required by the Department of Water Management Cross Connection Control (Part 15-116).**

Payment(s) for the re-inspection must be received before the request for the re-inspection. Payment(s) and original permit number for re-inspection can be submitted for approval through (1) the Land Development Office (LDO) online process, (2) at customer billing located at City Hall, 101 City Hall Plaza, or (3) mail a check to City Hall, 101 City Hall Plaza, Durham, NC 27701, ATTN: Cross Connection Control. **PLEASE NOTE: No re-inspections will be performed prior to fee payment being received and approved by the CCC staff.**

If you have any additional questions please feel free to contact our office at (919) 560-4194.

Thank you,

Cross-Connection Control Staff
Water Management Department
